ABSTRACT

Information on career education activities is provided in the compilation of career education projects. Activities are categorized into six areas: (1) activities designed to effect incremental improvements in K-12 career education programs; (2) activities designed to demonstrate the most effective methods and techniques in career education for the senior high school, the community college, and institutions of higher education; (3) activities designed to demonstrate the most effective methods and techniques in career education for special segments of the population (handicapped, gifted and talented, minority, low income, and female youth); (4) activities designed to demonstrate the most effective methods and techniques for training and retraining persons for conducting career education programs; (5) activities designed to communicate career education philosophy, methods, program activities, and evaluation results to career education practitioners and to the public; and (6) activities designed to survey and assess the current status of U.S. career education programs, projects, curricula, and materials as required under subsection (e) of Section 406 of Public Law 93-380. Information for each project is arranged according to state and project number, grant number and Office of Career Education team, project director and grantee organization, title of project, and federal funding.
